Choreographer:	Nicole Seiler	info@nicoleseiler.com Tel: +41 (0)76 562 78 94

Crew on tour:	2 dancers 1 choreographer (1 tour manager)
---------------	--

Version 1, performance under people's balconies:

- The organizer is responsible for the whole logistics, organization, and communication with the public (details to be discussed beforehand with the company)
- All spectators need to be equipped with a smartphone with the app Zoom installed and headphones.
- All technical material needed for the show is provided by the company
- We need a place to warm-up before the show – any studio is suitable.
- We need to be on spot about 30min before the show.

Version 2, performance in a "classical" setting, can be in a public space, in a foyer, on a small stage:

- A sound system with a microphone on a stand and the possibility to connect a phone by mini-jack is needed and needs to be installed beforehand – the company is not responsible for the set-up of the tech
- We need to be there about 2 hours before to do a warm-up and do a soundcheck
